

Mission Statement

To lead the Bridge expansion joint and bearing markets, as well as the Pavement seals markets worldwide, we will recognize and serve the needs of our customers better than our competitors. We strive on a daily basis to deliver products of genuine value to our customers. We pride ourselves on Innovation, Quality, Responsiveness and Productivity. It is the mission of The D.S. Brown Company to continually provide and maintain the manufacture of quality products based on a thorough adherence to complex specifications. Our greatest strength comes from the expertise of each of our employees.

From the first step of manufacturing a product to its final delivery, we set the performance standard for the industry. This standard is maintained by competitively producing top of the line products that are developed in a quality-minded environment. We regard this as superior customer service, which is essential to our success.
