Waterproofing

**Deckguard® Tack Coat**

**Product Description**
Deckguard® Tack Coat is a high solids, single component, polymer modified bitumen adhesive designed to provide the best possible bond of asphalt overlays to the Deckguard™ Membrane.

**Applications**
Deckguard® Tack Coat is designed for use with Deckguard™ Membrane and hot-applied DOT asphalts.

**Surface Preparation**
Remove any deleterious material from Deckguard® Membrane prior to applying Deckguard® Tack Coat.

**Mixing Instructions**
Deckguard® Tack Coat is a single component product. No mixing required.

**Application Recommendation**
Heat tack coat to 400°F in a double boiler, and then apply by mop, brush or squeegee.

**Safety**
Keep away from sparks and flame. Read Safety Data Sheet before using.

**Shelf Life**
Shelf life is up to three years in sealed, unopened factory containers under normal storage conditions of 55°F to 95°F.
