Section 1. Identification

Trade Name: Chemlock AP-134 - Delcrete®/Delpatch Primer
Identified Uses: Primer for Adhesives
Effective Date: 10/31/2016
Supersedes Date: 10/20/2015
Supplier: The D.S. Brown Company
300 East Cherry Street
North Baltimore, Ohio 45872
In Case of Emergency: Chemtrec 1-800-424-9300  International 01-703-741-5500

Section 2. Hazards Identification

Classification of the Substance or Mixture:
- Flammable liquids Category 2
- Acute toxicity Inhalation – dust and mist Category 4 – 18.0% of the mixture consists of ingredient(s) of unknown toxicity.
- Acute toxicity Inhalation – vapors Category 4 – 18.0% of the mixture consists of ingredient(s) of unknown toxicity.
- Skin corrosion/irritation Category 2
- Serious eye damage/eye irritation Category 1
- Germ cell mutagenicity Category 1B
- Carcinogenicity Category 1A
- Reproductive toxicity Category 2
- Specific target organ systemic toxicity (single exposure) Category 3
- Specific target organ systemic toxicity (single exposure) Category 1
- Specific target organ systemic toxicity (repeated exposure) Category 2 – blood, nervous system
- Specific target organ systemic toxicity (repeated exposure) Category 1 – central nervous system, kidney, liver, ears
- Aspiration hazard Category 1
- Hazardous to the aquatic environment - acute hazard Category 2
**Section 2. Hazards Identification cont’d.**

Hazardous to the aquatic environment - chronic hazard Category 2

| Precautionary Statements Prevention | Keep away from heat/sparks/open flames/hot surfaces. - No smoking. |
|                                    | Ground/Bond container and receiving equipment.                             |
|                                    | Use explosion-proof electrical/ventilating/lighting equipment.             |
|                                    | Use only non-sparking tools.                                               |
|                                    | Take precautionary measures against static discharge.                      |
|                                    | Obtain special instructions before use.                                    |
|                                    | Do not handle until all safety precautions have been read and understood.  |
|                                    | Wear protective gloves/protective clothing/eye protection/face protection. |
|                                    | Use personal protective equipment as required.                             |
|                                    | Do not breathe dust/fume/gas/mist/vapors/spray.                            |
|                                    | Wash thoroughly after handling.                                             |
|                                    | Do not eat, drink or smoke when using this product.                        |
|                                    | Use only outdoors or in a well-ventilated area.                            |
|                                    | Avoid release to the environment.                                           |
Section 2. Hazards Identification cont’d.

Response

: In case of fire: refer to section 5 of SDS for extinguishing media. Immediately call a poison center or doctor/physician. Specific treatment (see supplemental first aid instructions on this label). If inhaled: Remove to fresh air and keep at rest in a position comfortable for breathing. If on skin (or hair): Remove/Take off immediately all contaminated clothing. Rinse skin with water/shower. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Do NOT induce vomiting. Collect spillage.

Storage

Disposal

: Dispose of contents/container in accordance with waste/disposal laws and regulations of your country or particular locality.

Other Hazards

This product contains component(s) which have the following warnings; however based on the GHS classification criteria of your country or locale, the product mixture may be outside the respective category(s).

Acute

: Vapor harmful; may affect the brain or nervous system causing dizziness, headache or nausea. May be absorbed through the skin in harmful amounts. Possible irritation of the respiratory system can occur causing a variety of symptoms such as dryness of the throat, tightness of the chest, and shortness of breath. May cause central nervous system depression characterized by the following progressive steps: headache, dizziness, staggering gait, confusion, unconsciousness or coma. May cause headache and nausea. Harmful if swallowed. Ingestion is not an expected route of entry in industrial or commercial uses.

Chronic

: Prolonged or repeated contact may result in dermatitis. ACGIH considers Ethyl alcohol to be an A3 carcinogen (confirmed animal carcinogen with unknown relevance in humans).

Any “PROPRIETARY” component(s) in the above table is considered trade secret, thus the specific chemical and its exact concentration is being withheld.
Section 4. First Aid Measures

DESCRIPTION OF FIRST AID MEASURES

After Eye Contact: Flush eyes immediately with large amount of water for at least 15 minutes holding eyelids open while flushing. Get prompt medical attention.

After Skin Contact: Flush contaminated skin with large amounts of water while removing contaminated clothing. Wash affected skin areas with soap and water. Get medical attention if symptoms occur.

After Inhalation: Move person to fresh air. Restore and support continued breathing. If breathing is difficult, give oxygen. Get immediate medical attention.

After Ingestion: If swallowed, do not induce vomiting. Call a physician or poison control center immediately for further instructions. Never give anything by mouth if victim is rapidly losing consciousness, unconscious or convulsing.

DESCRIPTION OF INFORMATION FOR DOCTOR

Most Important Symptoms/Effects, Both Acute and Delayed: No further relevant information available.

Indication of Any Immediate Medical Attention and Special Treatment Needed: No further relevant information available.

Section 5. Fire-Fighting Measures

EXTINGUISHING MEDIA

Suitable Extinguishing Media: Carbon Dioxide, Dry Chemical, Foam, Water Fog

Specific Hazards Possibly Arising from the Chemical: Flammable liquid and vapor. Keep containers tightly closed. Isolate from heat, electrical equipment, sparks, open flame, and other sources of ignition. Closed containers may rupture when exposed to extreme heat. Use water spray to keep fire exposed containers cool. During a fire, irritating and/or toxic gases and particulate may be generated by thermal decomposition or combustion.

ADVICE FOR FIREFIGHTERS

Protective Equipment: Wear full firefighting protective clothing, including self-contained breathing apparatus (SCBA). Water spray may be ineffective. If water is used, fog nozzles are preferable.
Section 6. Accidental Release Measures

Personal Precautions, Protective Equipment, and Emergency Procedures

Remove all sources of ignition (flame, hot surfaces, and electrical, static or frictional sparks). Avoid contact. Avoid breathing vapors. Use self-contained breathing equipment.

Environmental Precautions

Do not contaminate bodies of water, waterways, or ditches, with chemical or used container.

Methods and Materials for Containment and Cleanup

Keep non-essential personnel a safe distance away from the spill area. Notify appropriate authorities if necessary. Avoid contact. Before attempting cleanup, refer to hazard caution information in other sections of the SDS form. Contain and remove with inert absorbent material.

Section 7. Handling and Storage

HANDLING

Precautions for Safe Handling

Keep closure tight and container upright to prevent leakage. Ground and bond containers when transferring material. Avoid skin and eye contact. Wash thoroughly after handling. Avoid breathing of vapor or spray mists. Do not handle until all safety precautions have been read and understood. Empty containers should not be re-used. Use with adequate ventilation. Because empty containers may retain product residue and flammable vapors, keep away from heat, sparks and flame; do not cut, puncture or weld on or near the empty container. Do not smoke where this product is used or stored.

CONDITIONS FOR SAFE STORAGE, INCLUDING ANY INCOMPATIBILITIES

Storage Requirements to be Met by Storerooms and Receptacles

Do not store or use near heat, sparks or open flame. Refer to OSHA 29CFR Part 1910.106 “Flammable and Combustible Liquids” for specific storage requirements. Store only in well-ventilated areas. Do not puncture, drag or slide container. Keep container closed when not in use.

Incompatibility

Strong acids, bases, and strong oxidizers.

N.A. - Not Applicable, N.E. - Not Established, S - Skin Designation

**Engineering Controls**: Sufficient ventilation in pattern and volume should be provided in order to maintain air contaminant levels below recommended exposure limits. Caution: Solvent vapors are heavier than air and collect in lower levels of the work area. Sufficient ventilation (using explosion-proof equipment) should be provided to prevent flammable vapor/air mixtures from accumulating.

**EXPOSURE CONTROLS**

**Personal Protection Measures/Equipment**

**Breathing Equipment**: Use a NIOSH/MSHA approved chemical/mechanical filter respirator designed to remove a combination of particulates and organic vapor if occupational limits are exceeded. For emergency situations, confined space use, or other conditions where exposure limits may be greatly exceeded, use an approved air-supplied respirator. Observe OSHA regulations (29 CFR 1910.134) for respirator use.

**Protection of Hands**: Use neoprene, nitrile or rubber gloves to prevent skin contact.

**Eye Protection**: Use safety eyewear including safety glasses with side shields and chemical goggles where splashing may occur.

**Other Protective Equipment**: Use disposable or impervious clothing if work clothing contamination is likely. Remove and wash contaminated clothing before reuse.

**Hygienic Practices**: Wash hands before eating, smoking or using toilet facility. Do not smoke in any chemical handling or storage area. Food or beverages should not be consumed anywhere this product is handled or stored. Wash thoroughly after handling.

Section 9. Physical and Chemical Properties

Typical values, not to be used for specification purposes.

Appearance
- Form: Liquid
- Color: Clear
- Odor: Solvent
- Odor Threshold: N.D.
- pH Value: N.A.
- Physical State: Liquid
- Flash Point: 1°C (35°F) Setaflash
  Closed Cup
- Boiling Point Range: 78–171°C
- Auto Ignition Temperature: N.D.
- Decomposition Temperature: N.D.
- Solubility in H2O: Insoluble
- Freeze Point: 10.8
- Coefficient of Water/Oil Distribution: N.D.
- Vapor Pressure: N.D.
- Explosion Limits
  - Lower: 1.1%(V)
  - Upper: 19%(V)
- Density at 20°C (68°F): 0.9 g/cm3 - 7.47 lb/gal
- Vapor Density: Heavier than air
- Evaporation Rate: Slower than n-butylacetate
- Viscosity
  - Dynamic: ≥0.9 mPa.s @ 25°C
  - Kinematic: ≥1 mm²/s @ 25°C
- Volatile by Weight: 87.09%
- Volatile by Volume: 90.37%
- VOC Calculated: 6.5 lb/gal, 779 g/l
- Method 24: 6.87 lb/gallon

LEGEND: N.A. - Not Applicable, N.E. - Not Established, N.D. - Not Determined

Section 10. Stability and Reactivity

Hazardous Polymerization: Hazardous polymerization will not occur under normal conditions.
Stability: Product is stable under normal storage conditions.
Conditions to Avoid: High temperatures. Sources of ignition.
Incompatible Materials: Strong acids, bases, and strong oxidizers.
Hazardous Decomposition Products: Carbon monoxide, carbon dioxide.
Section 11. Toxicological Information

Exposure Path: Refer to section 2 of this SDS.

Symptoms: Refer to section 2 of this SDS.

TSCA (Toxic Substances Control Act)

Inventory Status: The chemical substances in this product are on the TSCA Section 8 Inventory.

Export Notification: This product contains the following chemical substances subject to the reporting requirements of TSCA 12(B) if exported from the United States: NONE

Section 16. Other Information

Under HazCom 2012 it is optional to continue using the HMIS rating system. It is important to ensure employees have been trained to recognize the different numeric ratings associated with the HazCom 2012 and HMIS schemes.

HMIS Ratings

Health = 2*
Flammability = 3
Physical Hazard = 0

*Indicates a chronic hazard; see Section 2.
